
LINEA SPACE 4.2.4

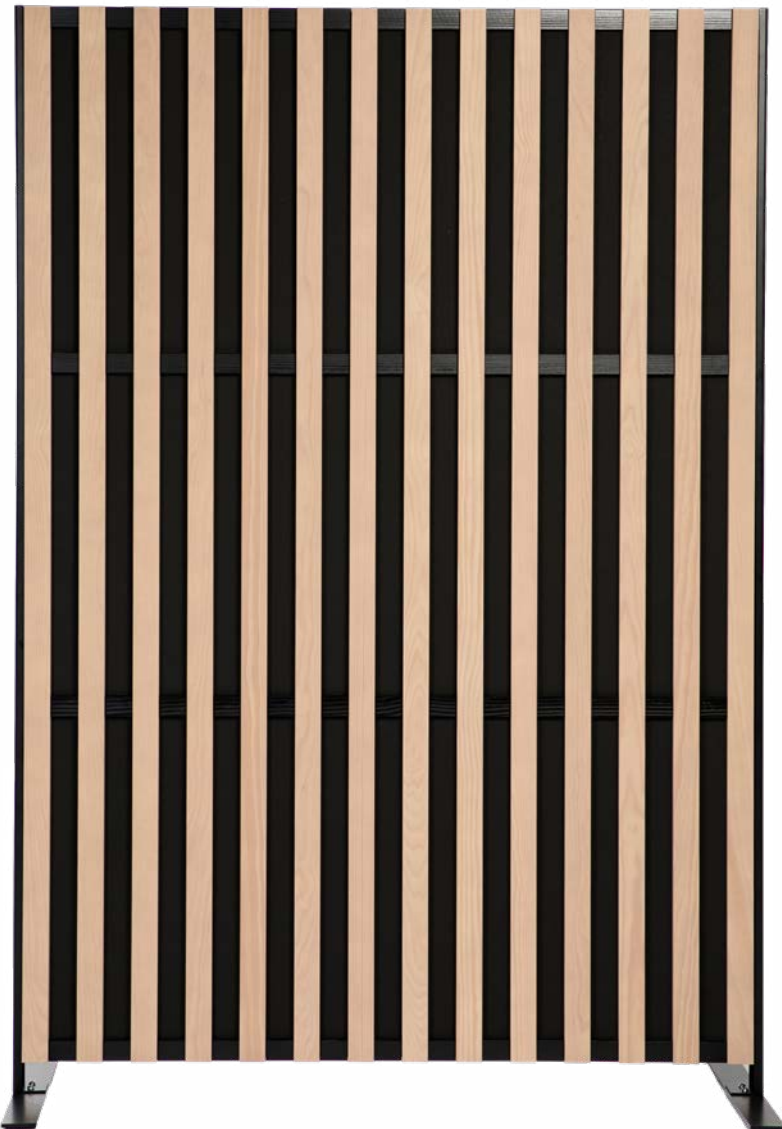

LINEA SPACE RANGE
MOVABLE PARTITIONS

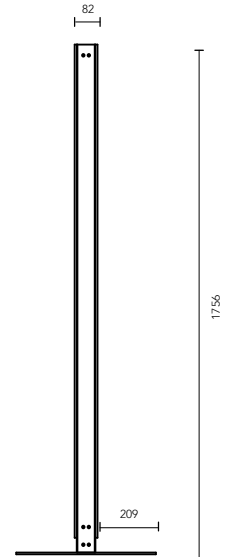

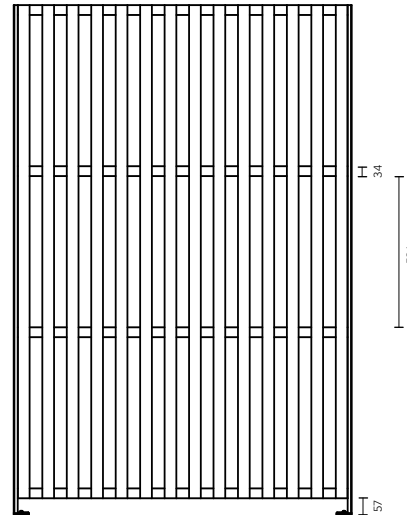

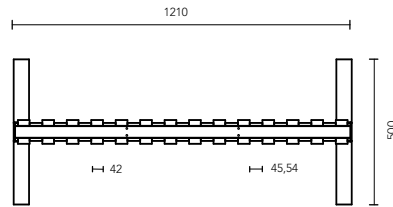

Self-supporting metal frame

Large combination
of species and finishes

Available in three configurations :
openwork, translucent or acoustic
(absorbent mineral wool)

TECHNICAL CHARACTERISTICS

Height	1756 mm
Width	1210 mm
Thickness	82 mm
Floor space	500 mm
Wood species	Pine, oak
Openwork version weight (pine)	39,8 kg
Openwork version weight (oak)	45,2 kg

FINISH / REACTION TO FIRE

(LINEA PANELS CLASSIFICATION AS PER EN 13501-1)

Varnish	D-s2,d0 / B-s1,d0 / B-s2,d0
Wax Color	D-s2,d0 / B-s1,d0 / B-s2,d0
Wax Color + varnish	D-s2,d0 / B-s1,d0 / B-s2,d0

ACOUSTIC RESULTS

The acoustic absorption is achieved with two Rockfon Color-All® tiles. The results of these acoustic mineral wool surfaced with black fleece facing are measured according to ISO 354.

AS A COMPLEMENT...

Acoustic mineral wool

Translucent alveolar polycarbonate

ASSEMBLY AND MAINTENANCE

Supporting feet are supplied unassembled.
Assembly is carried out using 4 screws and washers.

Keep free of dust.
LINEA SPACE partitions must not be cleaned with detergents or water-based products under any circumstances.

ENVIRONMENTAL CERTIFICATIONS

On request, woods used are FSC® or PEFC™ certified, guaranteeing that the wood come from sustainably and responsibly managed forests.
