

Model 2.4.6 indigo black counter-slats

Indigo

Model 2.4.6

Model 4.2.4

Improve aesthetics and acoustics spaces in a jiffy.

A ceiling with character

In natural or colored wood, Pop adds a touch of pep to any space.

High-performance acoustics

Ideal for meeting rooms, offices, catering facilities and any space requiring acoustic comfort.

Quick to install

Pop can easily be installed in place of a conventional ceiling tile.

Pop

by Laudescher

Acoustic tiles 600 x 600 mm for suspended ceilings with integrated PET insulation

- **2 models:** edge-mounted 2.4.6 or flat-mounted 4.2.4
- **Wood type:** pine
- **Slats, 5 wax finishes:** douglas, white oak, vegetal, terracotta, indigo
- **Counter-slats and PET insulation:** white or black

Acoustics: absorption class C with PET supplied and A (2.4.6), B (4.2.4) with 22 mm rock wool (not supplied)
Reaction to fire: slab only Euroclasse B-s2,d0, PET acoustic insulation Euroclasse B-s2,d0
Installation: on standard T24 framework supporting a minimum weight of 15kg/m².

The slab can be supplied without PET acoustic insulation.

An environmentally responsible approach

The Pop slab was designed to optimize wood lengths. It therefore contributes to the optimization of materials.
